## 2024\_28\_III\_OOPS Using Java Lab

### 2028\_REC\_OOPS using Java\_Week 3\_Q4

Attempt : 1  
Total Mark : 10  
Marks Obtained : 10

#### Section 1 : Coding

##### 1. Problem Statement

Sesha is developing a weather monitoring system for a region with multiple weather stations. Each weather station collects temperature data hourly and stores it in a 2D array.

Write a program that can add the temperature data from two different weather stations to create a combined temperature record for the region.

##### ***Input Format***

The first line of input consists of two space-separated integers N and M, representing the number of rows and columns of the matrices, respectively.

The next N lines consist of M space-separated integers, representing the values of the first matrix.

The following N lines consist of M space-separated integers, representing the values of the second matrix.

### ***Output Format***

The output prints the addition of the two matrices in N rows and M columns, representing the combined temperature record.

Refer to the sample output for formatting specifications.

### ***Sample Test Case***

Input: 3 3

1 2 3

4 5 6

7 8 9

1 1 1

2 2 2

3 3 3

Output: 2 3 4

6 7 8

10 11 12

### ***Answer***

// You are using Java

```
import java .util.*;
```

```
class mat{
```

```
    public static void main(String args[]){
```

```
        Scanner sc =new Scanner(System.in);
```

```
        int n=sc.nextInt();
```

```
        int m=sc.nextInt();
```

```
        int a[][]=new int[n][m];
```

```
        int b[][]=new int[n][m];
```

```
        int c[][]= new int[n][m];
```

```
        for(int i=0;i<n;i++){
```

```
            for(int j=0;j<m;j++){
```

```
                a[i][j]=sc.nextInt();
```

```
            }
```

```
}

for(int i=0;i<n;i++){
    for(int j=0;j<m;j++){
        b[i][j]=sc.nextInt();
    }
}

for(int i=0;i<n;i++){
    for(int j=0;j<m;j++){
        c[i][j]=a[i][j]+b[i][j];
    }
}

for(int i=0;i<n;i++){
    for(int j=0;j<m;j++){
        System.out.print(c[i][j]);
        System.out.print(" ");
    }System.out.println();
}

}
}
```

**Status :** Correct

**Marks :** 10/10
